SHIRLEY FRANKLIN
MAYOR

CHARLES C. GRAVES, III
Commissioner

MEMORANDUM

TO: Councilmember Cesear Mitchell, Chair
Community Development and Human Resources Committee

FROM: Charles C. Graves, III, Commissioner
Department of Planning and Community Development

SUBJECT: Updating of the 2004-2019 Comprehensive Development Plan (CDP)
Program and Project Tables

DATE: May 14, 2004

As you are aware the City Council adopted, and the Mayor approved, an ordinance (03-O-2240) that eliminated the requirement to do an annual update of the City's Comprehensive Development Plan (CDP).

However, the City is required by the State, as a condition of collecting Development Impact Fees, to annually submit a document called the Short Term Work Program (STWP). The heart of the STWP is the updated program and project tables at the end of each CDP element.

We are submitting an ordinance that will delete some of the existing tables and replace them with updated tables; and these tables, along with the tables that were not revised, will constitute the STWP. You will note that the Transportation and Environmental Facilities Elements have the greatest number of changes due to the large number of capital projects that are associated with these elements, and the normal process of implementation and project revision. The remaining elements, which were not changed, either had no tables to revise or consisted of continuing programs.

If you have any questions about the submitted legislation, please feel free to contact me.
